

# AIRFIELD MARKINGS & SIGNAGE CHECKS

# About Phans4:

Phans4 consulting is an inspection and testing agency employs qualified personnel who specialize in inspecting and testing civil equipment, Our experts are well qualified in relevant fields with international approved certifications to perform tests and inspections. They undergo continuous training to stay updated on the latest inspection techniques, testing methods, and regulatory requirements, Familiarity with Regulations and Codes. They all have experience working in relevant industries such as manufacturing, oil and gas, petrochemicals, power generation, or any other field involving civil equipment.

## AIRFIELD MARKINGS & SIGNAGE CHECKS

Phans4 Consulting is excited to introduce our Airfield Markings and Signage Checks Inspection services, dedicated to ensuring the clarity, precision, and safety of airfield guidance systems. Explore the six key services that define our commitment to excellence in aviation infrastructure:

### Our Services:

#### RUNWAY & TAXIWAY MARKING EVALUATIONS:

Dive into visibility with our marking evaluations. Phans4 Consulting conducts meticulous assessments of runway and taxiway markings, ensuring they meet international standards for size, color, and reflectivity.

#### PRECISION INSTRUMENT LANDING SYSTEM (ILS) SIGN INSPECTIONS:

Safeguard precision with our ILS sign inspections. We examine the condition and visibility of Instrument Landing System signs, ensuring accurate guidance for approaching aircraft during low-visibility conditions.

## HOLDING POSITION & TAXI LANE MARKING VERIFICATIONS:

Elevate ground control with our holding position and taxi lane marking verifications. Phans4 Consulting assesses the visibility and alignment of markings at holding positions and taxi lanes, optimizing safety and efficiency in ground operations.

## SURFACE PAINT FRICTION TESTING:

Uphold traction with our friction testing services. We measure the skid resistance of painted surfaces, providing insights to optimize the choice of paint and ensure reliable friction levels for aircraft during takeoff and landing.

## SIGNAGE RETROREFLECTIVITY CHECKS:

Optimize visibility with our retroreflectivity checks. We evaluate the retroreflective properties of airfield signs, providing recommendations for maintenance and replacements to enhance nighttime visibility.

## **COMPLIANCE AUDITS WITH REGULATORY STANDARDS:**

Stay in accordance with regulations with our compliance audits. Phans4 Consulting conducts thorough audits to ensure airfield markings and signage comply with local and international aviation standards, providing insights for corrective measures.

**Phans4 Consulting is your dedicated partner in ensuring the precision and safety of airfield guidance systems. Join us in navigating towards excellence in aviation infrastructure.
